

MZ-3

MZ-1

# The difference between MZ-3 and MZ-1 belts

## Which belt is right for you?

The **Myzone MZ-3** is an award-winning wearable fitness device designed to track, store, and provide activity data at Wodify Pulse-enabled gyms or smartphones using ANT+ technology. The MZ-3 has been proven to be over 99% accurate compared to other fitness wearables.

Users can store up to 16 hours of workout data in the MZ-3 module while out of range of their Wodify gym or smartphone.

The **Myzone MZ-1** delivers the same accurate heart rate and effort-tracking data to Wodify Pulse-enabled gyms and the Myzone app.

This economical model was designed specifically for users interested in class-based fitness.
